

## Thimbles Pennant Line Type TPL

- For specific application and to minimize excessive movement during operation
- Hot dipped galvanized steel
- Give greater protection against wear and deformation of the wire rope
- Has much longer service life
- Produced with a welded fillet plate against thimble deformation and collapse

### Thimbles Pennant Line Type TPL

| Product Code | Rope Dia. (mm) | Width Groove a (mm) | Length b (mm) | Width c (mm) | Length Inside d (mm) | Width Inside e (mm) | Weight per piece (kg) |
|--------------|----------------|---------------------|---------------|--------------|----------------------|---------------------|-----------------------|
| 016          | 16             | 17                  | 102           | 75.0         | 75.0                 | 50.0                | 0.4                   |
| 018          | 18             | 19                  | 115           | 85.0         | 80.0                 | 53.0                | 0.5                   |
| 020          | 20             | 21                  | 127           | 100          | 90.0                 | 60.0                | 0.8                   |
| 022          | 22             | 23                  | 140           | 110          | 95.0                 | 65.0                | 0.9                   |
| 024          | 24             | 25                  | 153           | 115          | 120                  | 70.0                | 1.0                   |
| 030          | 30             | 33                  | 205           | 155          | 160                  | 100                 | 2.5                   |
| 036          | 36             | 38                  | 230           | 175          | 185                  | 115                 | 4.0                   |
| 040          | 40             | 41                  | 255           | 190          | 195                  | 120                 | 4.5                   |
